

FLEXEXTEND SKATEWHEEL

Flexible & Extendable Gravity Conveyance

Whether you operate in the retail, fulfillment, manufacturing or shipping industry, the FlexExtend Skatewheel System is your go-to solution for efficient product movement. Designed to adapt to your specific needs, this conveyor is the epitome of flexibility and extensibility. Ideal for items with sturdy flat bases like cartons, totes and cases, FlexExtend offers cost-effective conveyance flexibility like no other. Key features include its ability to effortlessly navigate around obstacles, expand and collapse as required, maintain superior flow and self-track around curves. Say goodbye to gravity conveyor limitations and embrace a world of possibilities with FlexExtend!

EXPERIENCE THE DIFFERENCE

Adaptable Maneuverability

Flexible to convey around obstacles. These units can be curved up to 180 degrees.

Adjustable Length

Can be extended and collapsed as required.

Precision Steering

The individual skatewheels allow product to self-track when maneuvering around a curve.

Effortless Flow and Reduced Slope

The skatewheels flow more easily than rollers allowing for less slope. The standard polymer wheels provide the greatest flow-ability.

Space Saving Efficiency

Each unit's handle is collapsible optimize your available space, allowing for more efficient product storage and movement.

WHY BUY FROM ASHLAND?

Fast Turnaround: Our footprint in North America enables our customers to source high quality products domestically, eliminating the uncertainty of today's global supply chain while reducing lead times.

Uncompromising Quality: Delivering superior-grade products for reliable performance.

Experience and Knowledge: Over 80 Years of knowledge in the Conveyor and Conveyor systems business.

Versatile Selection: Diverse array of conveyor rollers to suit every application.

Dedicated Support: Exceptional customer service ensuring your satisfaction.
